## APPENDIX IV.

[Vide answer to starred question No. 729 asked by Sri N. K. Palanisami at the meeting of the Legislative Assembly held on 30th October 1958, page 117 supra.]

In the year 1892, the Government of Madras entrusted Sir Frederick Nicholson with the task of making an estimate of the volume of agricultural debt. As a result of his enquiry, Sir Frederick Nicholson concluded that the amount of rural indebtedness at the beginning of any harvest was about Rs. 45 crores for the Madras State as then constituted.

2. In 1930 the Madras Provincial Banking Enquiry Committee made an estimate of the rural indebtedness of the Province and it chose four districts including Coimbatore and Madurai for investigation. On the basis of the data the Committee considered that the total debt for the province as then constituted was in the neighbourhood of Rs. 150 crores.
